Dear Ms. Jacobi Wood and Commencement Associates:

The Washington Messenger recently learned about a lawsuit filed on May 6, 2009 by Andrea Figueira and Silver Legacy Ventures, Inc., against Windermere agent Maria Kalafatich, and Windermere Commencement Associates.

We notice that that the lawsuit was settled before trial, and that Kalafatich/Windermere Commencement Associates was **not** represented by the Demco Law Firm.

Have you changed the manner in which you treat your aggrieved clients? We'd love to bring such news to our readers.

Could you please tell us the terms of the settlement with Ms. Figueira/Silver Legacy Ventures? We'd like to know if a Dark Clause was included -- that is, did Windermere demand Figueira/Silver Legacy Ventures give up their rights to free speech concerning this lawsuit?

We'd also like to know whether you fully reimbursed Andrea Figueira/Silver Legacy Ventures Inc., for the damages they suffered.

Could you please tell us why the Demco Law Firm, which advertises that it has a strong anti-settlement policy, did not represent Kalafatich/Windermere Commencement Associates in this matter?

We are posting this letter to our website at:

and would be happy to post your response.

Sincerely,
